REQUEST FOR EXTENSION OF DRILLING REQUIREMENT UNDER GEOTHERMAL STEAM LEASE  
ML 32539

Sharonsteel, successor to UV Industries as lessee under the geothermal steam lease listed above has requested a five-year extension in which to commence drilling operations under this geothermal steam lease. The lease was issued February 9, 1976, for a term of ten years. Section 10 of this lease provides as follows:

10. Development of Leasehold Estate: Lessee agrees to commence drilling operations on a well at an appropriate location within the leasehold estate within five (5) years from the date hereof, and to prosecute the drilling with reasonable diligence until products are discovered in sufficient commercial potential, or to a depth below which further drilling would be unprofitable in the written opinion of the Lessee issued to the Lessor. Such five (5) year period may be extended by the Lessor for a period not to exceed five (5) years upon written application by Lessee showing good cause therefor not more than ninety (90) days nor less than thirty (30) days prior to expiration of the initial five (5) year period. At any time within said five (5) year period, Lessee may surrender its rights under this lease and agreement. Lessee also shall have the right to drill such well or wells on the leasehold estate at such location or locations deemed desirable by Lessee upon thirty (30) days notice in writing, which location or locations shall not unreasonably interfere with rights of holders of lease or leases and special use permits from the State of Utah. No well shall be drilled within 100 feet of the boundary line of the leasehold nor within 100 feet of any building on the surface of the leasehold without written permission of the Lessor.

Sharonsteel and its predecessor UV Industries have been active in geothermal exploration in Southwestern Utah.

It is the Staff's feeling that Sharonsteel has been diligent in conducting geothermal exploration on the lease listed above along with other lands held by that company; therefore, upon recommendation of Mr. Prince, the Director approved a five-year extension of the drilling requirements of this lease.
